IPNI Science Award for International Students, 2014

International Plant Nutrition Institute offers science award for international students. Awards are available for pursuing graduate degree (M.S. or PhD) at a degree-granting institution located in any country. The recipient receives a plaque and a monetary award of US\$5,000.00 (five thousand dollars). Private or public sector agronomists, crop scientists, soil scientists, and food scientists from all countries are eligible for nomination. The Award recognizes outstanding achievements in research, extension, or education which focus on efficient and effective management of plant nutrients and their positive interaction in fully integrated crop production, enhancing yield potential, and/or improving crop quality.

Deadline: The deadline for submission of nominations is September 30, 2014.

Fellowships

IDRC Bentley Cropping Systems Fellowship Program for Developing Countries, 2014

IDRC offers Bentley Cropping Systems Fellowship Program to a Canadian, permanent resident of Canada or citizen of a developing country. Applicants must be a graduate student with a university degree in agriculture, forestry, or biology and wish to undertake applied, on-farm research with cooperating farmers in one or more developing countries. Award tenure corresponds with the period of field research (between 18 and 24 months) and value of the award is up to CA\$30,000.

Deadline: The closing date for application is October 1, 2014 by 4:00 pm EST.

For more information: <http://www.idrc.ca/EN/Funding/Competitions/Pages/CompetitionDetails.aspx?CompetitionID=82>

TWAS Research and Advanced Training Fellowship: 2014 Call for Applications

TWAS, the World Academy of Sciences for the advancement of science in developing countries, is now accepting applications for the TWAS Research and Advanced Training Fellowship program.

The fellowships are offered to scientists from developing countries and are tenable at centers of excellence in various developing countries.

Eligible fields include one or more of the following: Agricultural and Biological Sciences, Medical and Health Sciences, Chemistry, Engineering, Astronomy, Space and Earth Sciences, Mathematics and Physics.

Women scientists are especially encouraged to apply.

Deadline: 1st October 2014.

For more information: <http://www.twas.org/opportunity/twas-fellowships-research-and-advanced-training>

TWAS Visiting Expert Program

The TWAS Visiting Expert Program supports visits of internationally renowned scientists to institutions located in developing countries, especially those located in the Least Developed Countries (LDCs). The objective of the program is to provide institutions and research groups in developing countries, especially those with limited outside contacts, with the opportunity to establish long-term links with world leaders in science and so help develop capacity-building in their country. Under the program, prospective host institutions can invite internationally renowned experts in areas of science other than mathematics and physics to collaborate in research and training.

The visit should have a minimum stay of two weeks at the host institution. TWAS will cover the cost of the air ticket and will provide an honorarium of USD 500, while the host institution is expected to cover local expenses.

Deadline: The application deadline is 1st October 2014.

For more information and to download the application form, please visit: <http://>

Humboldt Research Fellowships for Experienced Researchers in Germany, 2015

Applications are invited for Humboldt Research Fellowships available for experienced researchers to carry out a long-term research project (6-18 months) at a research institution in Germany. Approximately 500 research fellowships are awarded. Scientists and scholars of all nationalities and disciplines may apply. Applicants choose their own research projects and their host in Germany and prepare their research plan independently. Applications may be sent at any time.

Deadline: Applications may be sent at any time
